# Xerox® Phaser® 6010 Color Printer

## Great color, small size, built for sharing

Xerox makes color the easy, affordable choice with the Phaser 6010 color printer. With best-in-class print speed, it's the powerful, office-friendly solution for your team's printing demands.

### Print
### Letter / Legal
### 12 / 15 ppm color / black-and-white

**WxDxH:**
15.5 x 12 x 9.2 in.
394 x 304 x 233 mm

**Weight:**
23.4 lbs., 10.7 kg

### Outstanding color

- Proven Hi-Q LED print engine consumes low energy and space and produces low noise. It's the same breakthrough print engine technology found in some of our higher-end graphic-arts devices.

- A print resolution of up to 600 x 600 x 4 dpi delivers an amazing 16 shades of color per pixel. That means a wider color range for more impressive business graphics.

- Unique Xerox EA Eco toner technology gives you crisp text and printed images with superior gloss, detail and clarity. Plus, a low fusing temperature helps you conserve electricity. It's the same high-quality toner used in our professional graphic-arts color devices.

### Easy in the office and easy on the network

- The main paper tray supports a wide range of custom media and sizes, from labels to card-stock to envelopes. A convenient 10-sheet manual feed slot lets you feed media and envelopes without opening and loading the paper tray.

- Easy installation onto the network and pre-loaded toner cartridges make this printer virtually plug-and-play.

- The CentreWare IS internal web server lets you check the status of a print job or manage the device without leaving your computer.

- Super-quiet operation lets you keep your printer nearby for distraction-free convenience.

- Only four replacement items: the ultra-slim, easy-to-load toner cartridges that come with less packaging and take up less storage space.

### Productive performance

- Don't let the low price fool you. Whether you choose USB or network connectivity, the Phaser 6010 printer means business for your desktop or small team, providing real-world print productivity and a host of built-in features.

- Superior performance gets your jobs out fast, with print speeds as fast as 12 ppm for color and 15 ppm for black-and-white.

- With a 384 MHz processor and 128 MB standard memory, the Phaser 6010 handles your daily workload — even pages with graphics, photos and charts.

# Phaser® 6010
## Color Printer

| | Phaser® 6010N |
|---|---|
| **Speed** | Up to 12 ppm color / 15 ppm black-and-white |
