

LASERJET PRO 200 COLOR MFP

Quick Reference Guide

Optimize copy quality

The following copy-quality settings are available:

- **Auto Select:** Use this setting when you are not concerned about the quality of the copy. This is the default setting.
- **Mixed:** Use this setting for documents that contain a mixture of text and graphics.
- **Text:** Use this setting for documents that contain mostly text.
- **Picture:** Use this setting for documents that contain mostly graphics.

1. Load the document onto the scanner glass or into the document feeder.

2. From the Home screen, touch the **Copy** button.
3. Touch the **Settings** button, and then scroll to and touch the **Optimize** button. Touch the arrow buttons to scroll through the options, and then touch an option to select it.
4. Touch the **Black** or **Color** button to start copying.

Scan by using the HP Scan software (Windows)

1. Double-click the **HP Scan** icon on the computer desktop.
2. Select a scanning shortcut, and adjust the settings if necessary.
3. Click **Scan**.

NOTE: Click **Advanced Settings** to gain access to more options.

Click **Create New Shortcut** to create a customized set of settings and save it in the list of shortcuts.

Replace the toner cartridges

1. Open the front door.

2. Pull out the toner cartridge drawer.

3. Grasp the handle on the toner cartridge, and then pull the toner cartridge straight up to remove it.

4. Remove the new toner cartridge from the packaging.

5. Gently rock the toner cartridge from front to back to distribute the toner evenly inside the cartridge.

6. Remove the plastic shield from the bottom of the new toner cartridge.

- 7. Do not touch the imaging drum on the bottom of the toner cartridge. Fingerprints on the imaging drum can cause print-quality problems.

- 8. Insert the new toner cartridge into the product.

- 9. Pull the tab on the left side of the toner cartridge straight up to completely remove the sealing tape. Discard the sealing tape.

10. Close the toner cartridge drawer.

11. Close the front door.

12. Place the old toner cartridge and the plastic shield in the box for the new toner cartridge. Follow the recycling instructions that are included in the box.

Check the scanner glass for dirt and smudges

Over time, specks of debris might collect on the scanner glass and white plastic backing, which can affect performance. Use the following procedure to clean the scanner glass and white plastic backing.

1. Use the power switch to turn off the product, and then unplug the power cord from the electrical socket.

2. Open the scanner lid.
3. Clean the scanner glass and the white plastic backing with a soft cloth or sponge that has been moistened with nonabrasive glass cleaner.

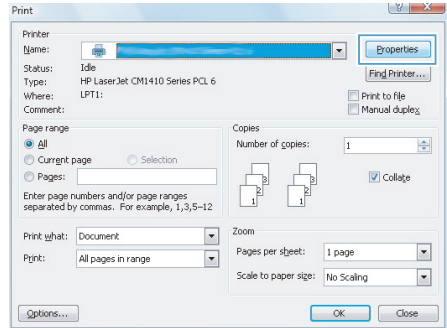

CAUTION: Do not use abrasives, acetone, benzene, ammonia, ethyl alcohol, or carbon tetrachloride on any part of the product; these can damage the product. Do not place liquids directly on the glass or platen. They might seep and damage the product.

4. Dry the glass and white plastic with a chamois or a cellulose sponge to prevent spotting.
5. Plug in the product, and then use the power switch to turn on the product.

Change color options (Windows)

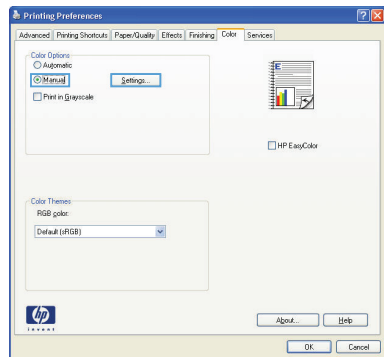

1. From the software program, select the **Print** option.
2. Select the product, and then click the **Properties** or **Preferences** button.

3. Click the **Color** tab.
4. Click the **Automatic** or **Manual** setting.

- **Automatic** setting: Select this setting for most color print jobs.
- **Manual** setting: Select this setting to adjust the color settings independent from other settings.

NOTE: Changing color settings manually can impact output. HP recommends that only color graphics experts change these settings.

5. Click the **Print in Grayscale** option to print a color document in black and shades of gray. Use this option to print color documents for photocopying or faxing. You can also use this option to print draft copies or to save color toner.
6. Click the **OK** button.

Print a cleaning page

1. From the Home screen, touch the Setup  button.
2. Touch the **Service** menu.
3. Touch the **Cleaning Page** button.
4. Load plain letter or A4 paper when you are prompted.
5. Touch the **OK** button to begin the cleaning process.

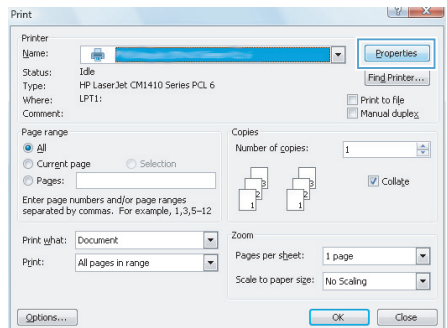

The product prints the first side and then prompts you to remove the page from the output bin and reload it in Tray 1, keeping the same orientation. Wait until the process is complete. Discard the page that prints.

Print on both sides (duplex) with Windows

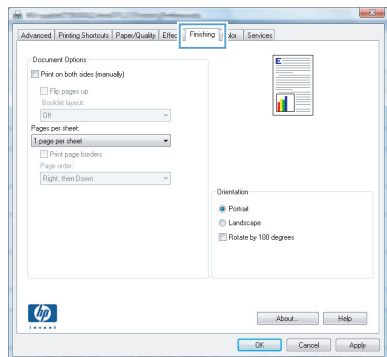

1. On the **File** menu in the software program, click **Print**.

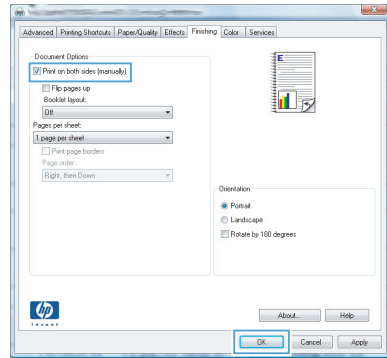

2. Select the product, and then click the **Properties** or **Preferences** button.

3. Click the **Finishing** tab.

4. Select the **Print on both sides** (manually) check box. Click the **OK** button to print the first side of the job.

5. Retrieve the printed stack from the output bin, and maintaining the same orientation, place it with the printed-side facing down in the input tray.

6. On the control panel, press the **OK** button to print the second side of the job.
